Re: 2020-2021 Space Florida Regulatory Plan [Sec. 120.74, Fla. Stat.]

Dear Mr. Plante:

Space Florida hereby files its 2020-2021 Regulatory Plan pursuant to the requirements in Section 120.74 of the Florida Statutes.

Subsection 120.74(1)(a) of the Florida Statutes requires a listing of each law enacted or amended during the previous 12 months which creates or modifies the duties or authority of Space Florida, a statement whether rule adoption is required to implement the law, and if so, whether a notice of rule development has been published, and an identification of the date by which Space Florida expects to publish the notice of proposed rule. Space Florida's 2020-2021 Regulatory Plan outlining the information required by Subsection 120.74(1)(a) of the Florida Statutes is included with this letter.

Subsection 120.74(1)(b) of the Florida Statutes states that the regulatory plan must also include a listing of each law not listed pursuant to Subsection 120.74(1)(a), which Space Florida expects to implement by rulemaking before July 1, 2021, including a statement whether rulemaking is intended to simplify, clarify, increase efficiency, improve coordination with other agencies, reduce costs, or delete obsolete, unnecessary or redundant rules. With respect to this requirement, Space Florida does not expect to implement any new laws by rulemaking before July 1, 2021.

Subsection 120.74(1)(c) of the Florida Statutes requires an identification and listing of laws which were previously identified in Space Florida's prior year's regulatory plan as requiring rulemaking to implement, but for which a notice of proposed rule has not been published. Space Florida has no laws to report pursuant to Subsection 120.74(1)(c) of the Florida Statutes.

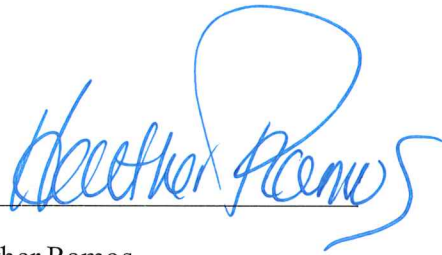

Finally, Subsection 120.74(1)(d) of the Florida Statutes requires Space Florida to submit a certification regarding its Regulatory Plan. Pursuant to Subsection 120.74(1)(d) of the Florida Statutes, we hereby verify that (i) the persons executing this certification have reviewed the Regulatory Plan, and (ii) that Space Florida regularly reviews all of its rules. Regarding Space Florida's review of its rules, requirements pertaining to the ability of Space Florida to issue bonds have changed in Part II of Chapter 331 of the Florida Statutes, Space Florida's enabling legislation. Space Florida does not need to revise or implement new rulemaking to remain consistent with Space Florida's enabling legislation.

Please let us know if you have questions or if you need anything further from Space Florida regarding the 2020-2021 Regulatory Plan.

Frank DiBello

Space Florida, President and CEO
